

S1-3 Electives

Technical / Home Economics / Music

CALLUM J. - S6 (2016)

Senior Phase

Maths - H

English - H

Graphic Communication - H

Engineering Science – N5

Physics – N5

Business Management - H

Chemistry - H

History - H

Open University module –
Galaxies, Stars and Planets

The logo for Elgin High School (EHS) features the letters 'EHS' in a stylized, blue, serif font. The letters are interconnected, with the 'E' and 'H' sharing a horizontal bar, and the 'S' overlapping the 'H'. The logo is set against a white background within a blue-bordered box.

My Future

I am going to study Mechanical Engineering at Dundee University. I believe that Mechanical Engineering will suit what I want to do and with it I will be able to make a positive difference to the world.

Choosing my Path

I used My World of Work website and decided I wanted to be a Civil Engineer. I followed this path until I got into sixth year and started going to open days. I found that Mechanical Engineering interested me more so I decided to pursue that instead.

Skills I've Developed

Communication
Teamwork
Problem Solving
Confidence
Organisational Skills

Wider Achievement

Outside of school I play curling and lead a team in local competitions and national competitions and I also coach curling to newer members. I represented Elgin High School in the national schools competition at Murrayfield. I have also taken part in a charity sponsored walk along the West Highland Way

My Advice

Get an idea of what you want to do (ish) and along the way if you want to change it, then change it. Also, keep on track and if you fall off, just get right back on track again.
